IT IS TIME TO PUT YOUR FEET UP

Thosounds of people across the globe benefit everyday from our incredibly comfortable chairs and now we are delighted to offer our iconic recliners with new mechanizm system. In perfect harmony with the modern design. LONDON is a great alternative to a recliner and seperate foot stool and is avaiabele in a few leg models. Leg the integrated footrest has a slim design , elegantly concealed beneath the seat. Provide support for your legs and extend the footrest outwards by lightly pushing a button under the armrest. The footrest is designed to follow the natural angle of your feet and can be adapted to different leg lengths , extending longer than most other footrest on the market. It is easy to get off the chair , even the footrest is extended. The back of the recliner is not motorised and moves in harmony with your body when you lean backwards.

IT IS TIME TO RELAX

When we relax , our heartrate slows . Tensions release and our blood pressure reduces. Relaxing also increases blood flow in the body , helping us to feel restored and energised. Making time to escape the stresses and strains of everyday life ... to restore body and mind is key to improving our overall well - being . Our experience in furniture making has taught us that comfort is highly personal .We have been perfecting comfort since 2006 and our recliners , sofas , chairs & armchairs actively encourage you to sit down and relax in the most comfortable way possible.

HOME OFFICE COMFORTS

Whether it is a dedicated room , a small study space or a nook in the dining room , it is important to be comfortable when working at home. If you spend a lot of time seated working at a screen , then a well designed chair that actively encourages a good posture is a necessity. Our collection of home office chairs / armchairs marries supreme comfort and style blending effortlessly with the rest of your interior. Soft cushioning and sublime lower back support mean you can sit for longer periods of time in complete comfort.

WHY CADI

The design philosophy behind CADI rests on a number of basic principles and there are decades of studies of the human anatomy behind every single product. For CADI it is crucial not to design objects, but rather experiences and a key to achieving that is to start from the inside.

Our vision is to develop the most comfortable seating in the world. We create recliners, sofas, office, restaurant, hotel, hospital chairs that provide perfect support for the body's every moment.
